SUBJECT INDEX

Air Traffic Control:

Application of Satellite Based Augmentation Systems to Altitude Separation. *J. P. Magny*. . 313
Free Flight For Air Traffic in Europe. *S. Ratcliffe* 289
Operating in the North Atlantic MNPS Airspace. *Conor Whelan* 11

Collision Avoidance:

A Real-Time Ship Manoeuvring Simulation Study for the Strait of Istanbul (Bosporus) *K. Sariöz, A. Kükner and E. Narli* 394
Why is There This Urge to Pass "Close To"? *A. T. C. Millns* 297

Command and Control:

A Graphic Synthesis for Space Manoeuvring. *Carl Iannuzzi and Giancarlo Lucarelli* 90
Issues in Remote Pilotage. *M. Hadley* 1
Automatic Ship Handling of the Maritime Search Mission using a Self-Tuning Fuzzy Gain Scheduling PD Controller. *K. W. Yu, R. C. Hwang, and J. G. Hsieh.* 378

Communications:

Digital Selective Calling: The Weak Link of the GMDSS. *Capt. Anthony H. Patterson and Capt. Philip S. McCarter* 28
Analysis of Self Organising Radio Systems for Position Reporting. *Dr. Ulrich Ann Dr. Dirk Kügler and Dr. Hermann Rohling* 196
The Effects of Globalstar MSS Transmissions on the Future Reception of GLONASS, *John Cooper and Peter Daly* 259

Geodesy and Projections:

Differential Equation of a Loxodrome on a Sphere. *S. Kos, D. Vranic and D. Zec.* 418
GNSS & WGS 84. For Marine Navigation in UK Waters. *Vidal Ashkenazi, Terry Moore, Mark Dumville and Wu Chen* 189
The Great Ellipse: Solution for Distances and Headings to Steer between Waypoints. *P. R. Walwyn* 421

GNSS Applications:

Advanced Transport Telematics Positioning Requirements: An Assessment of GPS Performance in Greater London *Dr. W. Y. Ochieng, Dr. P. J. Shardlow and G. Johnston* 342
Carrier Phase GPS Navigation to the North Pole. *T. Moore and G. W. Roberts* 80
GPS in Agriculture – A Growing Market! *J. V. Stafford* 60
GPSIM: A Personal Computer-Based GPS Simulator System. *D. Ibrahim* 126
Guiding Blind Pedestrians with a Personal Navigation System. *A. H. Dodson, G. V. Moon and T. Moore* 330
Testing a Medium Range DGPS network for the Taiwan Area. *C. C. Chang and S. H. Lin* . 279
Technical and Programmatic Features of the FAA's LAAS, *R. Swinder, K. Kaser, V. Wullschleger, J. Warburton and R. Braff* 217

History:

Vertical Sextants Give Good Sights. *W. W. Huybrecht* 138
A fix by Total Eclipse. *D. H. Sadler* 296
Shipwrecks in the Revolutionary and Napoleonic Eras, 1793–1815. Casual Factors and Comments. *D. F. H. Grocott* 149

Maps and Charts:

Dynamic Environment Charting – The next stage for Marine Electronic Navigation. *M. J. Fennessy*. 367
Feedback from Users of Electronic Chart Technology. *David Edmonds* 141

Meteorology
Current Methods for Meteorological and Marine Forecasting for the Assistance of Navigation and Shipping Operations. *R. Del Prete, A. Pezzoli and G. Pezzoli* 104

Navigational Aids:
An Evaluation of the Increase in the Quality and Quantity of Navigational Information available from Low-Frequency Radio Navigation Systems. *V. Filin* 411
Application of the Least Square Method for Determining Magnetic Compass Deviation. *A. Felski*. 388
The Instrument Landing System: Replace or Repair it? *C. B. Watts Jr.* 356
Waypoint Navigation for Rivercraft? *D. Breedveld* 136
Eurofix System and Its Developments. *G. W. A. Offermans, A. W. S. Helwig and D. van Willigen* 163
European Radiobeacon DGNSS: Making the most of the Frequency Band. *David Last and Birol Erdem Turhan* 176

Planning:
Finite Difference Vehicular Path Planning. *J. Wharington and I. Herszberg* 268

Radar:
On the Effects of Plotting Performance by the Efforts of Pointing Targets in the ARPA System. *Dr. Egil Pederson, Yasuo Arai and Naoto Sato* 119

Safety:
The Development and Analysis of a Navigational Incident Database for Naval Vessels *Cdr. M. Rothwell, and Dr. J. Chudley* 318

Satellite Navigation Systems:
Planning of Future Satellite Navigation Systems. *J. Spiller, T. Tapsell and R. Peckham* . . . 47
Legal Issues including Liability associated with the Acquisition, Use and Failure of GPS/GNSS. *Gregory E. Michael* 246
Satellite-Based Augmentation Systems; The Need for International Standards. *George V. Kinal* 70
Northern Europe Satellite Test Bed. *Alan Schuster-Bruce, James Lawson, Michael Quinloan and Andrew McGregor* 235
US Satellite Navigation Programme Status. *C. McCullough* 303

Space Weather:
Predicting Solar Disturbance Effects on Navigation Systems. *M. Lockwood, M. N. Wild, R. Stamper, C. J. Davis and M. Grande* 203
The Impact of Solar Winds on Navigational Aids. *W. H. Sandford.* 42

Vessel Traffic Services:
Testing the Quality of Information on Tracked Vessels in a VTS Centre with GNSS, *Ryszaerd Wawruch, Jaroslaw Cydejko and Marek Dziewicki.* 252
